The live auction begins after dinner. An auctioneer will work the room through each lot in order, accepting bids from paddles on the floor. Winning bidders settle at checkout at the end of the night.

This program has the full details for every lot — the fine print, the perks, the booking info, the little things that don't make it into the auctioneer's pitch. Read ahead during cocktail hour. Scan the QR on each page for additional photos on BetterWorld.

Framed modern art by our littlest artists

This vibrant creation is a framed piece of modern art made entirely from splatter paint by kindergarten students — transformed into a bold, striking wall piece.

Kindergarten students brought pure, uninhibited energy and creativity to this project, and the result is a colorful explosion of joy that holds its own against any contemporary artwork. Framed and ready to hang, this is the kind of piece that sparks conversation and brings a smile to everyone who sees it.

A rare opportunity to own original student art that is genuinely beautiful, full of life, and completely one of a kind.
